## The International Fraternity of Delta Sigma Pi

*Professional Commerce and Business  
Administration Fraternity*

Delta Sigma Pi was founded at New York University, School of Commerce, Accounts and Finance, on November 7, 1907, by Alexander F. Makay, Alfred Moysello, Harold V. Jacobs and H. Albert Tienken. Delta Sigma Pi is a professional fraternity organized to foster the study of business in universities; to encourage scholarship, social activity and the association of students for their mutual advancement by research and practice; to promote closer affiliation between the commercial world and students of commerce, and to further a higher standard of commercial ethics and culture, and the civic and commercial welfare of the community.

THE MOTTO ON the Archives Building in Washington, D.C., reads "The heritage of the past is the seed that brings forth the harvest of the future." How appropriate it is to reflect on these words during this month when Delta Sigma Pi is celebrating the sixty-first anniversary of its founding.

Our fraternity began as a yearning in the lives of four men, a yearning for lasting friendships, for the personal attachment of brotherhood, common understanding, and a mutual professional interest. These four men and those who came after them fed their craving with idealism and action and made of four a host of thousands and, from one small chapter at New York University, they sowed seeds which have, to date, sprouted into 153 chapters.

What has made Delta Sigma Pi great? The potential for greatness rested in the ideals upon which it was founded, but the life force of the fraternity has been the action of its members. Action which has been distinguished by the totality of commitment to Delta Sigma Pi's ideals and traditions. Action which has been characterized by notable examples and

striking deeds realizing the fraternity's time-honored objectives.

And what of the future? Can we do any less? Brothers of Delta Sigma Pi, we cannot escape history. We will be remembered in spite of ourselves. Our horizon is bright, but Thoreau observed "The horizon is never quite at our elbows." Need it be only that?

Today everyone has the opportunity to belong to many groups and to participate in many activities. Each of us selected Delta Sigma Pi as the organization which we wanted to be a part of. In so doing, we accepted the responsibility to involve ourselves in Delta Sigma Pi's growth and advance its welfare and progress.

The issue is clear. We know what has to be done and how to do it. The future glowing in the brightness of our horizon beckons to us. It is indeed but awaiting our pledge, and then the fulfillment of our pledge, to do everything necessary to make it real. If we stand idly by, though, the future will be but a fantasy—an abrogation of the heritage of an already splendid past.

## A Word From The Central Office

OUR ATTENTION early this Fall has been directed to the nine Regional Meetings which were held in September and October, the presentation of "The Deltasig of the Year" awards for 1967 and 1968 to Reynold E. Carlson, Ambassador to Colombia and Daniel J. Haughton, chairman of the board of the Lockheed Aircraft Corporation. We have also com-

pleted the 21st Biennial Survey which is the largest one ever.

We have now turned our attention to the conversion of our record keeping system to Electronic Data Processing and the normal schedule of activities and planning for the 27th Grand Chapter Congress at Mackinac Island, Michigan, August 20-23, 1969.

## Second Chapter in Utah Installed at Weber State College

DELTA SIGMA PI installed its second chapter in the State of Utah on March 30, 1968, when a charter was granted to Eta Lambda Chapter at Weber State College in Ogden, Utah. The other chapter in the state is Sigma Chapter, chartered in 1922 at the University of Utah in Salt Lake City.

In Ogden for the installation were Grand President M. John Marko, *Rutgers*; Executive Director Charles L. Farrar, *Louisiana Tech*; Regional Director Warren E. Armstrong, *New Mexico*; and Executive Secretary Ben H. Wolfenberger, *Texas Tech*. Assisting delegations were also present from Sigma Chapter and Zeta Kappa Chapter at Western State College of Colorado in Gunnison, Colorado.

The Student Union Building served as headquarters for the day's activities. The program got underway with a walking tour of the campus. Following lunch and a brief tour of the city by car, the entire group returned to the Student Union for the informal and formal ritualistic initiations.

In the evening the Installation Banquet was held at the Defense Depot Officers' Club. The program began with Regional Director Warren E. Armstrong, who served as toastmaster, introducing the Chancellor of Eta Lambda Chapter, James L. Smout, who gave the invocation.

Dr. William P. Miller, president of Weber State College, then extended greetings to the chapter and the visiting

guests from the college. He was followed by Dr. Quinn G. McKay, dean of the School of Business, who gave a history of that school. Edwin G. Calvin, senior vice president of the chapter, presented a brief history of the founding and the activities of the Weber State Honorary Business Association.

Grand President M. John Marko presented the charge and charter to the chapter, and as the evening reached its climax, Chapter President Robert L. Foster accepted the charge and charter on behalf of Eta Lambda Chapter.

Closing the official banquet program, Executive Director Charles L. Farrar presented the many greetings which had been received from other national officers, chapters and alumni clubs across the nation.

Following the banquet a dance was held at the officers' club for the chapter members, guests, wives and dates.

### History of Weber State College

Weber State College was founded at Ogden, Utah, as Weber State Academy in 1889 by the Weber State Board of Education of The Church of Jesus Christ of Latter-Day Saints; was expanded in 1922 to include a distinct junior college department along with its high school curriculum; and in 1933 was transferred to the State of Utah. For the next 28 years it was operated as a state-supported junior college with the first major junior year in 1962-63 and the first senior year in 1963-64. In 1961, the Legislature created a Board of Trustees for the college whose members were appointed by the Governor.

For many years the college campus was located near Ogden's business sec-

tion. In 1954 it was moved to a new 175-acre site and pioneered a progressive new undertaking in community and state educational history. The school has now acquired a total of 275 acres and has added several new buildings to the physical plant.

When the school opened on January 7, 1889, a total of 98 students appeared before two instructors. Today approximately 300 faculty members instruct more than 8,000 students in a wide variety of subjects. Growth over three-quarters of a century reflects a deep concern of Utah's citizenry for higher education.

The school is accredited by the Northwest Association and is a member of several educational associations.

The four schools in which a student may study are: The School of Arts, Letters, and Science; The School of Business; The School of Education; and The School of Technology and Trade Technical Education.

As a four-year state institution, cooperating with the people and the community, Weber State College ascertains educational needs and organizes programs to meet them.

### The School of Business and Economics

The School of Business and Economics aims to provide men and women with the opportunity to make a life and a living, to educate them to enter private business, to prepare them for employment with Federal and state government agencies, to assist them to become teachers, to help them acquire skills required in the many phases of economic and business research, to develop in them an understanding of our economy, and to enhance their ability to analyze thought.

At present, the School includes the Departments of Accounting, Economics,

Business Administration, Office Administration and Business Education.

The School offers baccalaureate programs in Accounting, Banking and Finance, Economics, Management, Marketing, and Office Administration, and a secondary composite teaching major in Business Education.

At present there are over 700 students enrolled in the day division of the School of Business and over 529 in the evening division. Dr. Quinn G. McKay is dean of the School of Business.

### History of the Weber State Honorary Business Association

The Weber State Honorary Business Association was the culmination of an idea which began in the Spring of 1967. At that time business students held informal meetings during which they discussed the advantages of group affiliation. Interaction among business students at

Weber State College, with common goals and ideals, was felt to be highly desirable. It was determined that an organization was needed on campus to promote closer relationships between the business world and students and to provide recognition for those business students.

In April, 1967, a visit to the Weber State campus by Executive Director Charles L. Farrar, of Delta Sigma Pi reinforced the thinking of business students as to the merits of affiliation with a national fraternity if a business association was to be formed. From this meeting organizational procedures and guidelines were obtained, and an idea was transformed into concrete planning. Prospective members were solicited, committees were formed, and in September of 1967, the Weber State Honorary Business Association was established. A program of professional meetings and tours were set up and the operation of a professional business fraternity began.

By having a select group with high standards, ideals, and goals and having members with the common bond of business studies, the organization proved to be a valuable asset to its individual members in terms of fellowship; aiding in the educational process through interaction with men of the business world in the intermountain area; distinguishing outstanding business students; and broadening the range of school relationships for association members.

Valuable assistance was given to the organization by Mr. James C. Harper of the Economics and Accounting Department, and recognition is given to under-

graduate Edwin G. Calvin who provided the spark, brought the interested students together, and assisted in bringing to the Weber State campus a professional organization needed and desired by the School of Business and Economics.

On March 30, 1968, the brief history of the Weber State Honorary Business Association came to a close as the following men became charter members of Eta Lambda Chapter of Delta Sigma Pi: Larry Nye Austin, Kenneth Reed Beck, Edwin Gene Calvin, Neil H. Christensen, Douglas Malin Cox, Steven Jay Davis, Robert Lee Foster, James Carhart Harper, John Leonard Higgins, James Robert Howell, Jr., Kenneth Gordon Kraus, Thomas Charles Majeski, James Sampson McGregor, Quinn Gunn McKay, Robert Lynn Richardson, Stephen Lloyd Richey, Stephen McEntire Sill, James Lyman Smout, Thomas Wendall Snow, Ned Jones Stephens, Bruce Busby Stephenson, Boyd Dean Sullivan, and Norman Dee Taylor.

## Faculty Members and The Professional Fraternity

by  
RALPH C. HOOK, JR.

Dr. Ralph C. Hook, Jr., is currently serving on the Grand Council of Delta Sigma Pi as the Director of Business Education. He is also dean of the College of Business Administration at the University of Hawaii, Honolulu, Hawaii. Brother Hook received his B.A. and M.A. degrees from the University of Missouri at Columbia and his Ph.D. degree from the University of Texas.

Brother Hook has been active in Delta Sigma Pi, both locally and nationally, since his initiation into the Fraternity by Gamma Omega Chapter at Arizona State University, Tempe.

The word "fraternity" comes from the Latin word meaning brotherhood. The faculty members of Delta Sigma Pi have a unique opportunity for fraternal brotherhood in their capacity as members of the academic community. By being on a campus where an undergraduate chapter is located, the faculty brother can associate with members of the chapter frequently. It can be on a monthly, weekly, or even a daily basis.

### Techniques of Involvement

1. Be a Brother—One way a faculty member can become involved as a member of his fraternity is to participate in the activities of the fraternity on campus. This can be accomplished by attending functions of the undergraduate chapter. After serving as an advisor to the Gamma Omega Chapter at Arizona State University for five years, I am sure that just being present at the functions of the chapter is greatly appreciated. It is also personally satisfying.

2. Serve as Chapter Advisor—One of the most rewarding ways to become involved in your fraternity is to serve as a Chapter Advisor. This opportunity is limited to a small number of faculty brothers but can be expanded by using co-advisors and rotating advisors. In a working

relationship with the young men in the chapter a faculty brother has a better opportunity to see these young men develop than he has teaching a limited number of courses, where there is little opportunity to see this type of growth and development.

3. Serve as an Unofficial Advisor—Faculty brothers can seek out opportunities to encourage and counsel chapter officers and potential officers to fulfill their leadership responsibilities. They can also lend technical advice to members of the chapter concerning their professional area of concentration. Still another way to be an unofficial advisor is to suggest the names of students who would make good brothers. A fraternity must be born again each year or it dies. Without a continuous supply of good new members, even the best chapter can disappear.

4. Read and contribute to The DELTASIG—Each faculty member, as well as each undergraduate member, of Delta Sigma Pi receives the fraternity magazine, published four times annually in the months of November, January, March and May. Because of his involvement in the academic community and his training in the field of writing, the faculty member is uniquely qualified to contribute articles or other material to be considered for publication in the magazine.

### Handicaps to Involvement

1. Communication—Sometimes the faculty member does not know when or where the chapter is meeting. Some chapters shift the time and place of meetings. This lack of communication is the result of inexperience and thoughtlessness. The answer can be found in offering understanding and advice to the officers in charge.

2. Misunderstanding—Undergraduate members sometimes assume that faculty brothers are not interested in the fraternity. Unfortunately, this is sometimes true. The brothers on the faculty who recognize the rewards of fraternal association need to communicate their interest to members of the chapter.

### A Final Word

The International Fraternity of Delta Sigma Pi is on the move. Involvement is the key to a meaningful experience for all brothers. A faculty member is a brother for life, whether he is initiated as an undergraduate or as a faculty member. The fraternity and the local chapters need the participation of faculty members. My personal hope is for greater involvement on the part of faculty brothers.

# Eta Mu Chapter Installed at Northern Illinois University

ON SUNDAY, APRIL 28, 1968, Eta Mu Chapter of Delta Sigma Pi was installed at Northern Illinois University at DeKalb, Illinois. Eta Mu Chapter became the ninth chapter to be installed in the State of Illinois and increased the chapter roll to 152 undergraduate chapters. Other chapters which have been installed in Illinois are: Beta, Northwestern University-Chicago; Zeta, Northwestern University-Evanston; Upsilon, University of Illinois-Urbana; Alpha Psi, University of Chicago; Alpha Omega, DePaul University; Gamma Pi, Loyola University; Epsilon Omega, Eastern Illinois University; and Zeta Xi, Lewis College.

The members of the new chapter were on hand at Wirtz Hall, where the College of Business is located, to greet national officers and other guests as they arrived on campus for registration. Following the introductions, members and guests departed for a tour of part of the extensive campus of the university. After the tour, the group met for an informal luncheon at the University Center. Following lunch, the informal and formal initiation ceremonies were conducted in Wirtz Hall.

On hand for the installation were: Grand President M. John Marko, *Rutgers*; Executive Secretary Ben H. Wolfenberger, *Texas Tech*; Regional Director Thomas M. Mocella, *Northwestern-Chicago*; District Director Kenneth L. Vadovsky, *Eastern Illinois*; District Director Timothy D. Gover, *Southern Methodist*; and District Director Robert Neimon, *Marquette*. Assisting these national officers were delegations from Beta Chapter, Northwestern University-Chicago; Upsilon Chapter, University of Illinois-Urbana; Gamma Pi Chapter, Loyola University; Epsilon Omega Chapter, Eastern Illinois University; Zeta Xi Chapter, Lewis College; and Psi Chapter, University of Wisconsin-Madison.

Also on hand for the installation were Rudolph Janzen, *Minnesota*; Eta Mu Chapter Advisor Robert C. Judd, *DePaul*; and Golden Council Members Grand Secretary-Treasurer Emeritus H. G. Wright, *Northwestern*; Frank A. Geraci, *Northwestern*; Robert O. Lewis, *Northwestern*; and Robert A. Mocella, *Northwestern*.

Following the formal initiation ceremonies, the activities moved to the Vagabond Inn at Rochelle, Illinois, site of the Installation Banquet. Regional Director Thomas M. Mocella, serving as toastmaster, introduced Dr. James R. Connor, Associate Provost of Northern Illinois University, who extended greetings on behalf of the university. A history of the College of Business was then given by Dr. Robert L. Thistlethwaite, dean. Senior Vice President John A. Eudes presented the story of the founding of Nu Iota Fraternity which had become Eta Mu Chapter of Delta Sigma Pi.

Grand President M. John Marko presided at the high point of the evening when he presented the charge and charter to the chapter. Accepting on behalf of the chapter was President Charles F. Hofbauer, Jr.

District Director Kenneth L. Vadovsky and Executive Secretary Ben H. Wolfenberger extended fraternal greetings to the new chapter from chapters, alumni clubs and national officers from across the country. Concluding the official program was the presentation of the chapter gavel

to President Charles F. Hofbauer, Jr., by Regional Director Thomas M. Mocella.

## History of Northern Illinois University

The university was first established in 1895 as Northern Illinois State Normal School offering a two year certificate. In 1921 the school became Northern Illinois State Teachers College and began offering the four year Bachelor's Degree in Education and added graduate work in Education in 1951. The year 1955 saw another name change, this time to Northern Illinois State College. The name Northern Illinois University was granted in 1958 and graduate work was extended at both the master's and doctoral levels.

During the first 55 years of its history, Northern Illinois grew modestly and slowly. Since 1950, however, the University has been developing its programs, curricula, faculty, library resources, research facilities and physical plant as rapidly as its commitment to excellence will permit. The years ahead offer the prospect of greater opportunities and challenges as the university enlarges and div-

ersifies to keep pace with the phenomenal growth in population, and the expansion of industry, commerce and agriculture in northern Illinois.

The institution continues the process of expanding and strengthening its upper divisions and graduate programs, its facilities and its faculty as college enrollments continue to mushroom and the area junior colleges continue their phenomenal growth. The university is accredited by a number of associations and, along with Illinois State University at Normal, Illinois, comprises the Regency System of multi-purpose institutions of public higher education in the state.

The university offers a wide range of degrees in the Colleges of Liberal Arts and Sciences, Fine and Applied Arts, Education, Business, Continuing Education, and The Graduate School.

### The College of Business

The Department of Business at Northern Illinois University started as a Department of Business Education in 1951. A steady increase in enrollment was experienced during the first four years, and in 1955 the Bachelor of Science degree in business administration was first offered.

As enrollment continued to increase, curriculum changes were made each year and new faculty were added. The major curriculum change was made in 1955 when the business administration options were organized.

In September of 1961, the College of Business was created with the four departments—Business Education, Accounting, Management and Finance, and Marketing. Dr. R. L. Thistlethwaite also became Dean of the College of Business at that time. In 1963, management and

finance were divided into two departments, and in 1964, the college moved to Wirtz Hall where larger quarters would accommodate the growing college.

In the relatively brief period of 16 years, the College of Business has produced 3,198 graduates and presently has an enrollment of about 3,300 students.

### History of Nu Iota Fraternity

**NU IOTA FRATERNITY** was founded on December 12, 1967, for the expressed purpose of petitioning Delta Sigma Pi for a chapter charter. A steering committee had been in operation for some time considering a professional fraternity for the College of Business. Once the objectives of the fraternity were established following the report of the steering committee, officers were elected and Nu Iota Fraternity was formed.

During the time that the constitution was being written, the petition to Delta Sigma Pi was being created and the fraternity was seeking school recognition as

a school organization. The men of the fraternity were also busy with a diversified program of other activities. The members sponsored faculty-student get-togethers to promote better understanding and to enhance the classroom education of the undergraduates. Business opportunities were discussed with undecided majors and majors outside the College of Business among the student body. These discussions were held both informally and from a more formal panel. The fraternity planned a business careers conference on the campus and also held professional speakers, field trips, and other activities for its own members.

On Sunday, April 28, 1968, the following members of Nu Iota Fraternity became charter members of Eta Mu Chapter of Delta Sigma Pi: Michael Douglas Anderson, Robert Lee Bell, Gregg Harry Byers, Robert Charles Cargo, James Evert Carlson, Carl Walter Chizewski, Jerry Douglas Conner, Michael Francis Del Fra, Michael John DeSplinter, John Alfred Eudes, Donald Wayne Farrington, William Allen Frank, William Robert Gresher, Michael Patrick Guthrie, Terrence Robert Healy, Charles F. # New Business Building Completed at Sam Houston State College

THE CLOSE OF THE fall semester was moving time for the School of Business Administration and Economics. The move involved the transfer of thousands of books and various items of equipment from classrooms formerly occupied in the Administration, the Academic Classroom, and the Music II Building to the new School of Business-Economics Building.

The three-story and auditorium-annex building, located in the east campus complex, contains approximately 40,000 square feet of floor space. It provides the 1600 students and 26 faculty members of the School of Business and Economics with the most up-to-date physical facilities in the state. The new building reflects the administration's commitment to first-class education for the business and education leaders in the future. In addition to the 14 lecture rooms, one seminar, an auditorium, and ten laboratories, there are 42 spacious faculty offices. With the exception of one laboratory, new furniture was purchased for the building.

The main part of the building is rectangular in shape—160 feet long by 60 feet wide. All air conditioning equipment is contained in a copper-sheathed penthouse.

The Business-Economics building is one of three on the campus that will flank a landscaped mall. The other two buildings are the Academic Classroom Building and the Library. Cross walks in the mall will facilitate movement from the library to each of the classroom buildings.

The first floor contains seven classrooms with student seating capacity that varies from 56 to 80 students. There is also a library and reading room for graduate students. One may enter the building from the street at the west end or from the mall at the east end. As one enters from the street, at the left is a service center for students in the School of Business and Applied Arts and the office of the Dean and his secretary. A duplication and work room connects the departmental offices with a faculty suite containing four offices. At the east end of the first floor a spacious lobby connects

the main building with a beautiful auditorium. It is equipped with a projection booth, a built-in public address system, chalk boards and a projection screen. There are 288 upholstered auditorium chairs, covered in a Scotch-guard cloth in two shades of orange.

The second floor contains two machine laboratories, a seminar room, and five lecture rooms with a seating capacity of 56 each. Faculty offices range along either side of the corridor on the north side of the building. There is an office for a department of business administration director and a secretary at one end and the economics director and his receptionist are located at the east end of the hall. Provision has been made for the future installation of auxiliary hardware to connect with the computer laboratory in the Academic Classroom Building.

The third floor contains four secretarial laboratories, four accounting laboratories, and one lecture room in addition to 15

faculty offices. A feature of the secretarial rooms which provide for flexibility in scheduling classes is a folding wall in the center of each of the laboratories. The folding wall may be opened to provide space for 50 to 55 students, or closed to permit the scheduling of two small classes in each laboratory. One laboratory is equipped with 50 manual typewriters, the other is equipped with 55 electric typewriters and two sound-proof booths.

One feature of the building is the provision for the improvement of instruction through the use of visual aids. Each room has a screen and an overhead projector. The auditorium is available for the projection of movie films.

The building was planned to handle the 3,000 Business-Economics students expected by 1975. Dr. Jean D. Neal is dean of the School of Business Administration and Applied Arts. Sam Houston State College is the home of Epsilon Mu Chapter of Delta Sigma Pi which was installed on April 14, 1962.

# Professional Interfraternity Conference Meets in Chicago

THE TWENTY-THIRD official meeting of the Professional Interfraternity Conference was held at the Illini Union Building on the Medical Campus of the University of Illinois in Chicago on March 15, 16 and 17, 1968. This was the Fortieth Anniversary of the founding of the Conference, which was formed in Washington, D.C., on March 2, 1928.

Dr. C. H. Wm. Ruhe, Phi Rho Sigma, president, presided at the business sessions of the conference. Dr. Robert J. Beals, Sigma Phi Delta, president-elect, planned and coordinated the discussion sessions devoted to problems facing the member fraternities. Dr. Conrad A. Blomquist, Phi Delta Chi, was responsible for the physical arrangements of the meeting.

Representatives from nineteen of the twenty-six member fraternities and nine of the eleven professions attended the three-day session. Four former national presidents: J. D. Sparks, Alpha Kappa Psi; R. W. Lemley, Delta Theta Phi; Russell G. Glass, Theta Tau; and Meredith M. Daubin, Delta Theta Phi, attended the meeting.

Discussion groups on Undergraduate Membership, Expansion, Fraternity Publications, Alumni Participation and Fraternity Finances were held. In reporting to the entire meeting on Undergraduate Membership, Moderator E. Marshall Carson, Xi Psi Phi, stated that faculty support was essential to the well-being of any fraternity and that the loss of undergraduate chapters was often due to faculty disinterest. The professional and social program of the chapter must contain a personal appeal and approach to the faculty member. A personally delivered,

verbal invitation for specific action will gain far greater faculty support than any other method. Those chapters exposed to an enthusiastic alumni group will be successful. The responsibility for the growth of college chapters rests with the national and regional officers. The enthusiasm of these officers in contact with the chapters is important in generating and continuing interest in the fraternity.

William E. Koch, Jr., Xi Psi Phi, moderator of the discussion group on Expansion, reported that a proper image is important. There should be good public relations from within. There are many misunderstandings regarding the professional fraternity wherein they are confused with honorary fraternities and recognition societies. It was the concensus that local PIC groups on campus should be encouraged and that there should be information in the various school catalogues regarding the professional fraternities on that campus. There is need for better indoctrination of the pledges to lifelong dedicated membership. Every fraternity needs dedicated membership. Every fraternity needs dedicated national officers with backup people preparing to take the present leaders' positions.

Moderator Meredith M. Daubin, Delta Theta Phi, speaking on Fraternity Publications, noted that most of the fraternity publications avoided strictly technical articles, for which many other journals

were available, and concentrated on news, letters, pictures and articles of members and chapters. Most fraternity magazines are mailed individually to alumni and to students by bundles at the local chapter. Many fraternities use their publication as a directory. Others issue a separately bound directory on a periodic basis. Advertising was considered by several organizations but appeared to be inappropriate in view of the limited readership of the professional fraternity magazine.

Alumni Participation is a labor of love, stated Joseph G. Maddox, Sigma Delta Kappa, moderator. One of the most important phases of alumni association with the campus chapter is the counseling they provide. The alumnus cannot expect to get a return payment for services rendered as he gives his time, substance and self to further his fraternity.

The delegates passed a resolution in memory of Price Doyle, Phi Mu Alpha Sinfonia, who was serving on the Board of Directors of PIC at the time of his death. The Conference went on record as approving the policy that each fraternity has the inherent right in choosing its own pledges and members according to the regulations listed in each fraternity's constitution and bylaws.

Delegates and guests heard Bernard B. Brody, Past Supreme Councillor of Rho Pi Phi Fraternity, speak on "The Future of Professional Fraternities" at the banquet held at the Imperial Inn on Saturday evening.

Elected to serve as officers for the biennium 1968-1970 were Robert J. Beals, Sigma Phi Delta (engineering), president; Joseph G. Maddox, Sigma Delta Kappa (law), president-elect; William E. Koch, Jr., Xi Psi Phi (dentistry) vice president; Robert E. Pope, Theta Tau (engineering), secretary; Frank J. Brye, Alpha Kappa Psi (commerce), treasurer; and directors C. H. Wm. Ruhe, Phi Rho Sigma (medicine); Meredith M. Daubin, Delta Theta Phi (law); Conrad A. Blomquist, Phi Delta Chi (pharmacy); E. Marshall Carson, Xi Psi Phi (dentistry); and Erwin Small, Omega Tau Sigma (veterinary medicine).

# University of Missouri Granted Second Chapter at St. Louis Campus

THE SECOND CHAPTER of Delta Sigma Pi to be granted to the University of Missouri was installed on the St. Louis campus on May 18, 1968. Alpha Beta Chapter, the first to be installed at the University of Missouri at Columbia, was installed on March 24, 1923. Other chapters of the Fraternity in Missouri are Alpha Chi at Washington University and Beta Sigma at St. Louis University.

On hand for the installation were Grand President M. John Marko, Regional Director LaVerne A. Cox, Executive Director Charles L. Farrar, District Director Dennis Weber, Past Regional Director and charter member of Alpha Beta Chapter Royal D. M. Bauer, and members of Upsilon Chapter at the University of Illinois, Alpha Beta Chapter at the University of Missouri at Columbia, Alpha Epsilon Chapter at the University of Minnesota, Beta Sigma Chapter at St. Louis University and Delta Tau Chapter at Indiana State University.

The program for the day began with the registration of guests and members in Benton Hall. Following the completion of the registration the guests were conducted on a tour of the campus, followed by the informal and formal ritualistic initiations which were also held in Benton Hall.

The installation banquet, held at Stan Musial and Biggies, began with the invocation delivered by Brother Royal D. M. Bauer. Regional Director LaVerne A. Cox, acting as toastmaster, then introduced Dr. James L. Bugg, Jr., chancellor of the University of Missouri at St. Louis, who extended words of welcome and greetings to the new members and guests. Dr. Emery C. Turner, dean of the School of Business, was then called upon to present a history of the school. One of the founders of Delta Sigma Chi, the local fraternity which became Eta Nu Chapter, and Senior Vice President of the chapter, Joe Thomann presented a history of the fraternity.

The highlight of the evening came when Grand President M. John Marko presented the charge and the charter to

Jack D. Patton, president of Eta Nu Chapter, who accepted it on behalf of the members. The many letters and telegrams of welcome to the new chapter which had been received from throughout the fraternity were then presented by Executive Director Charles L. Farrar.

## History of the University of Missouri

The University of Missouri was established in 1839 at Columbia. Through the years the changing demands of higher education in the state have altered the University from a small liberal arts college to a large university embracing 15 schools and colleges in Columbia, and a separate School of Mines and Metallurgy in Rolla, founded in 1870.

The University of Missouri at St. Louis opened in the Fall of 1960 as the Normandy Residence Center. Established through the joint efforts of the University of Missouri and the Normandy (St. Louis County) School District, it began as a junior college serving 250 students

its first year. An evening curriculum supervised by the Extension Division of the University provided adult education courses.

In 1963 the former University of Kansas City and the Normandy Residence Center in St. Louis were added to the University of Missouri. The administrative leadership of the University resides in a single Board of Curators and President, and in four Chancellors who act as the administrative heads of the four campuses.

The original student body of 250 grew to 540 by 1963 and to over 7,000 during the Fall of 1967. The faculty, which originally numbered four full-time and eight part-time, now numbers nearly 300 full and part-time instructors.

Altered from a two year to a four year institution in 1963, the University of Missouri at St. Louis now has a full four year resident program in both its day and evening divisions, as well as a graduate program in Education offered in conjunction with the College of Education at Co-

ETA NU CHAPTER President Jack D. Patton, shown on the left, accepts the chapter charter from Grand President Marko during the installation ceremonies held at Stan Musial and Biggies in St. Louis.

lumbia. The St. Louis campus is divided into a College of Arts and Sciences, and Schools of Education and Business.

Located on the site of the former Bellerive Country Club, the campus consists of 132 acres. Numerous buildings have been and are being completed to accommodate the rapid expansion of the University of Missouri at St. Louis which is expected to have more than 20,000 students by 1975.

### History of the School of Business

From the University's very beginning in 1960 as the Normandy Residence Center of the University of Missouri courses in elementary accounting, statistics and economics were offered. A department of business administration was first formed in 1964 and had a staff of five members. In 1966 the staff in the Department was enlarged to 11 and the name changed from Department to Division of Business, reporting directly to the central administration of the campus and functioning as a semi-autonomous unit.

The School of Business Administration was actually organized in 1967. The staff at that time consisted of three full-time professors, four associate professors, nine assistant professors, and three instructors. Fourteen members of the staff had earned Ph.D. degrees while the remaining five were working toward this degree.

Like the University, the number of students in the School of Business has grown rapidly. During the first year of existence there were only 50 students en-

rolled in business while over 800 were enrolled in the School of Business during the 1967-68 academic year. A new building to house the School of Business is expected to be completed by the Fall of 1970. A Masters of Business Administration program will begin during the Fall of 1969. Dr. Emery C. Turner is dean of the School.

### History of Delta Sigma Chi

March 1967 marked the beginning of what became Delta Sigma Chi. Joe Thomann, Joe Carapella and Bill Runge had discussed the benefits of organizing a fraternity at the University of Missouri at St. Louis. They checked into the different

types of fraternities, service, social, and professional, in order to make an intelligent choice.

Joe Thomann decided to visit nearby St. Louis University and discuss their plans with a member of Delta Sigma Phi but, instead, visited with Ed Kuhn, president of Beta Sigma Chapter of Delta Sigma Pi. Brother Kuhn convinced Joe that a professional business fraternity was what they really needed. He also informed him that Grand President Marko and Executive Director Farrar were expected to be in St. Louis shortly for the annual meeting of the American Association of Collegiate Schools of Business, Don Driemeier, a member of the faculty at the University, accompanied Joe Thomann and Bill Runge to a meeting with Grand President Marko, Executive Director Farrar and Executive Secretary Ben H. Wolfenberger.

Following this meeting and talk around campus, 25 students joined the newly formed organization. After another meeting of the entire membership with Executive Director Farrar the members of Delta Sigma Chi decided to work toward affiliation with Delta Sigma Pi.

During the Fall semester the local fraternity continued to work to promote its name on campus and build a stronger program for its members. On December 4, 1967, the members of Delta Sigma Chi were pledged to Delta Sigma Pi by Grand President Marko.

On May 18, 1968, 54 members of Delta Sigma Chi became charter members of Eta Nu Chapter of Delta Sigma Pi. The members are as follows: Jack D. Patton, Joseph F. Thomann, James S.

ROBERT M. CROWE, *South Carolina*, has just recently assumed his new duties as dean of the College of Business Administration at the University of Tulsa.

## HOUSTON

THE HOUSTON ALUMNI CLUB is on its way! There have been several attempts over the years to form an alumni club for the Houston area. At our last meeting the club bylaws were accepted and officers were elected. We have presented our request for a charter to The Central Office. Meetings will be held the last Tuesday of each month—normally at the American General Building at 7:30 P.M.

Our initial meeting was held in April, 1968, at the Budweiser Brewery in Houston. This was an informal meeting used to determine the interest in forming a Houston Alumni Club. Letters were mailed to Brothers appearing on a mailing list furnished by The Central Office. With approximately 70 Brothers attending, the meeting was considered successful.

Succeeding meetings have included a get-together at the Cork Club in May, a baseball game at the Astrodome in June, and a picnic in July (at which time we adopted our bylaws). Our next three meetings will be politically oriented and will include speakers who will discuss local, state, and national issues.

We are looking forward to a successful alumni club and invite all Deltasigs in the Houston area to join us.—ROBERT K. SAMPSON

## CHICAGO

President Harry Bertram and the officers and directors of the Chicago Alumni Club have planned a program for the current season that offers something for every Brother. We kicked off the season on Tuesday evening, September 10, with our traditional 'Round-Up Night.' This was celebrated at the Deltasig House with charcoal broiled steaks, fellowship, and fun and games.

In October we joined with the Brothers from the other chapters and alumni clubs at the Central Regional Meeting at the Cross-town Holiday Inn at Kalamazoo, Michigan.

On Thursday, November 7, Founders' Day was celebrated with a banquet at Orlando's Restaurant. On Saturday, December 7, we host a party for the children, our own and guests from a settlement house. There will be a children's play at Theatre First and refreshments thereafter at Zum Deutschen Eck. Santa Claus has promised a preview appearance.

On Saturday evening, January 11, 1969, brothers and their wives or dates will gather for a Dinner-Teatre Party at the Ivanhoe. Following in February and March are two evenings of potables, fine food and fellowship. On February 11 we will host the undergraduates and on March 11 we again pay homage to those rogues, our Past Presidents.

Those lovely ladies will be with us again on Saturday evening, April 12. There will be a potluck social at the Deltasig House. For the next month we will be saving a few dollars for the May event which will be a night at the races—the trotters at Sportsman's Park.

Our last event of the season will be held on Thursday, June 12—the traditional Golf Outing at the Midwest Country Club. For

those unable to golf, the putting contest will be held just outside of the 19th hole preceding the scrumptious prime rib banquet, awarding of prizes galore, and the election of officers and directors for the 1969-1970 season.

We cordially extend to all brothers living in the Chicago Metropolitan Area a warm, sincere invitation to join with us in this year of fellowship. Inquiries should be addressed to 42 East Cedar Street, Chicago, Illinois, 60611.—DON F. HOLEM

## BALTIMORE

THE BALTIMORE ALUMNI CLUB honored its Past Presidents at a testimonial dinner on March 21, 1968. It was, without a doubt, one of the finest affairs the Club has ever had. Twenty-one of the twenty-six living ex-presidents were on hand to receive Testimonials of Appreciation and the esteem of the group. We were honored to have, as a special guest, Brother Herb Finney, Director of Alumni Activities. The Huntley-Brinkley type program was enjoyed by all, judging from the applause and comments of the 45 members in attendance.

At the June meeting new officers were elected as follows; President, Raymond A. Bullinger; 1st Vice President, William Grinder; 2nd Vice President, Robert M. Stauffer; Treasurer, William H. Stubbins; and Secretary, Gilbert McNew.

The annual picnic and outing with the Washington Alumni Club, normally a festive affair for our Club, was marred by the loss of a hard fought softball game and with it the prized "Little Brown Jug" to the Washington Alumni Club. Even with this setback the day was enjoyed by members and their families. One of the highlights of the professional meeting schedule earlier this year was a talk on the business side of baseball by the Controller of the Orioles. We are now convinced the "Game" is big business. President

Ray Bullinger and the Officers are looking forward to an active, successful year of Alumni activity and extend a warm welcome to any Deltasigs in the Baltimore area to join us. . . —DICK FINLAY

## SACRAMENTO

Activities for the new fiscal year have been formulated and promise to make '68-'69 an exciting year.

On July 26, 25 Brothers attended Sacramento's annual Music Circus. West Side Story was the featured event, which produced an enjoyable evening for all.

The August 15 dinner-business meeting featured guest speaker Mr. Lee Baldarelli, owner of the new Sacramento Capitols, a new semi-professional football team in Sacramento. Mr. Baldarelli informed the Brotherhood about the new team and the many problems confronting such a venture as this. His main philosophy is that of giving the city and fans maximum value for their money.

September's meeting incorporated a new innovation in which the wives will determine the type of function to be held.

A special guest speaker was the main event for our Founders' Day dinner on November 8.

On January 1, we will welcome the new year by having a New Year's Eve party. Larry Andreucetti will be the chairman for the event.

The new Alumni Club officers for 1968-1969 are Boyd Fottrell, president; Ray Nielsen, vice president; Bill Dosch, vice president; Mike Kemp, vice president; Walt Barnes, vice president; Jerry Davis, treasurer; Dennis Sbarboro, secretary; and Dave Murphy, secretary.

All Deltasigs in the Sacramento area are invited to join the Sacramento Alumni Association. Contact Boyd Fottrell, 5442 Bentley Way, Carmichael, Calif.—BILL DOSCH

SHOWN HERE ARE 21 of the 26 living past presidents of the Baltimore Alumni Club who attended a Testimonial Dinner in their honor at the Hopkins Club in Baltimore recently.

## NEW YORK

THE NEW YORK ALUMNI CLUB initiated a new year after a successful Round-Up dinner held June 8th with Grand President Marko in attendance. The Alumni Governors and Officers for the coming year are: Chairman Edward A. Uhler; 1st Vice President William V. Smalley; 2nd Vice President Dean O'Hare; Secretary Donald A. Groene; Treasurer and The DELTASIG Correspondent Edwin J. Cummings.

Kerwin B. Stallings was selected as Activities Chairman. Brother Stallings has scheduled our Founders' Day dinner for November 7th. He is also planning a theatre party to be held sometime in January of the New Year, along with several other good-time evenings for Deltasigs and their wives or dates.

Frank McGoldrick is up and around after being grounded by doctor's orders. Secretary Groene vacationed in Caracas, Venezuela, as guest of Brother Henry Gomez, visiting professor at Universidad Catolica Andreas Bellas. We in New York extend a welcome to all those attending the Eastern Regional Meeting. Any Deltasig in the New York area is urged to contact Don Groene at 667-3773 or the local chapter house at GR5-9313, area code for both 212, in order to participate in the coming Alumni events and further the purposes of our Fraternity. In conclusion, Alpha Chapter extends its best wishes to all undergraduates in this scholastic year.—EDWIN J. CUMMINGS

## MINNEAPOLIS-ST. PAUL

THE MINNEAPOLIS-ST. PAUL Alumni Club of Delta Sigma Pi last year experienced a year of great success for the short time it has been in existence since reorganization. The Club was led by Brother Paul Powers last year who will continue to lead the club this forthcoming year.

Last spring in March the brothers were addressed by Mr. Roy Svec, District Manager of Montgomery Ward, at a professional dinner. Mr. Svec talked on the topic 'Management in Modern Business' and answered the questions from the group in attendance.

In May, 1968, the Brothers of the Alumni Club elected its officers to lead them for the forthcoming year. They are as follows: President Paul Powers, Vice President of Finance Jim Strauss, Vice President of Group Representation John Halloran, Vice President of Membership Dick Vogen, Vice President of Professional Activities Charlie Conroy, Vice President of Public Relations Norman Kalvoda, and Vice President of Social Affairs Dave Dubke.

Brother Dave Dubke, vice president of social affairs, organized an August Lakeside Party that was a smashing success. In addition to boating, picnicking, socializing, swimming and water skiing, a ten piece Tijuana band was present to furnish dancing and listening music. Brother LaVerne A. Cox, Midwestern Regional Director, along with the some 30 to 35 couples in attendance, enjoyed an afternoon of fun. It was indeed a party that won't be forgotten for some time.

On September 11, 1968, the Executive Committee met to discuss and plan the events for the forthcoming year. Included in the schedule of events are professional dinners, social affairs, and possibly a co-event with the Alpha Epsilon Chapter. The coming 1968-69 academic year should prove to be most productive, profitable, and rewarding for the Brothers of the Club.—NORMAN R. KALVODA

## Ralph C. Hook, Jr., is Named Dean of the College of Business at Hawaii

DR. RALPH C. HOOK, JR., a member of Gamma Omega Chapter at Arizona State University, Tempe, has been named Dean of the College of Business Administration at the University of Hawaii, Honolulu, Hawaii. Brother Hook is also the Director of Business Education on the Grand Council of Delta Sigma Pi.

Born in Kansas City, Missouri, he attended the University of Missouri at Columbia where he received both his B.A. and M.A. degrees. He later earned his Ph.D. degree from the University of Texas at Austin. Prior to being named dean at Hawaii he was a professor of marketing at Arizona State University, a position he had held since 1960.

Brother Hook was an instructor at the University of Missouri at Columbia, an assistant professor at Texas A & M University, a lecturer at the University of Texas at Austin, an associate professor at the University of Kansas City (now the University of Missouri at Kansas City) and Director of the Bureau of Business Research and Services at Arizona State until 1966.

He was first named to the Grand Council of Delta Sigma Pi in 1964, succeeding Dr. Walter A. Brower, Jr., now dean of the School of Education at Rider College. He was chairman of the first Ed-

itorial Advisory Board for the DELTASIG and has served on a number of national committees of the fraternity.

He holds membership in the American Marketing Association, which he has served as Vice President and president of the Central Arizona Chapter; the National Council for Small Business Management Development which he also served as president; the American Society of Training and Development, of which he is currently president of the Valley of the Sun Chapter; and the Western Council for Travel Research and the Newcomen Society in North America. He is a member of Beta Theta Pi general fraternity and past president of the Arizona Alumni Association of Beta Theta Pi.

His brother, Harold S. Hook, Executive Vice President of the United States Life Insurance Co., is a member of Alpha Beta Chapter of Delta Sigma Pi at the University of Missouri at Columbia.

## A Treasured Possession

WHILE READING a Newsletter of one of our chapters, I took note of a very special first page item. This chapter president in the letter to his brothers stated, "Being a Deltasig is one of my most treasured possessions." When I read this, along with the remainder of his remarks, I was convinced that nothing could be added to this phrase. Even as alumni members of many years, I do not believe we should forget our treasured possessions—possessions we have been privileged to carry away from college days into and through our business lives.

Is there anything more convincing to us than to learn that our undergraduate brothers treasure this possession which is also ours and can be ours for a long time?

Our 1968-1969 season is on the road. When we come to the end of that road in 1969 can we, in our alumni clubs, say, "Action, not Apathy, is the Secret of a Lifetime Experience as a Deltasig." It Takes Action.—HERB FINNEY

SHOWN ON THE left here are the new officers of the San Francisco Alumni Club. They are from left to right: Dick Skidmore, first vice president; Ernie Dankas, second vice president; Jerry Freschi, treasurer; John Harrison, third vice president; Art England, secretary; Ted Wiedemann, president; and Bob Lovejoy, outgoing president. On the right the members of the San Francisco Alumni Club appear to be having a most enjoyable meeting.

# George E. Ragland is Appointed Director of the Southeastern Region

GEORGE E. RAGLAND, a member of Gamma Zeta Chapter at Memphis State University, has been appointed by the Grand Council Director of the Southeastern Region to fill the vacancy on the Grand Council caused by the resignation of James R. Westlake. Brother Ragland will serve as Southeastern Regional Director until the 27th Grand Chapter Congress at Mackinac Island, Michigan, in 1969 at which time an election will be held for a Regional Director to complete the remaining two year portion of the four year term which expires at the 28th Grand Chapter Congress at Pocono Manor, Pennsylvania, in 1971.

NEW DIRECTOR of the Southeastern Region is George E. Ragland, a member of Gamma Zeta Chapter at Memphis State University.

Brother Ragland graduated from Memphis State in 1957 with a bachelor of science degree in economics, Magna Cum Laude. He was president of his chapter during his last year in college and later served as president of the Memphis Alumni Club. From 1959 to 1966 he served as a District Director in the South Central Region. When he was transferred by his company from Memphis to St. Petersburg, Florida, he was again named District Director in the Southeastern Region, a position he held until his appointment as Regional Director. He has also helped organize and has participated in a number of Regional Meetings and was in attendance at the 25th Grand Chapter Congress at West End, Grand Bahama Island.

After graduation from Memphis State he joined the College Textbook Division of Prentice-Hall, Inc. He has worked as a Field Representative, Regional Recruiter and Field Supervisor before assuming his current responsibilities as Senior Field Representative for Prentice-Hall securing college level manuscripts for publication, and marketing of a broad list of books covering all academic disciplines.

Now residing at St. Petersburg, Florida, Brother Ragland is married and the father of five children.

## PITTSBURGH

THE ANNUAL Deltasig family picnic was again, as always, a huge success. This affair, planned and carried off by Lambda Chapter at the University of Pittsburgh, is always open to members of the Pittsburgh Alumni Club. This year, North Park was the site and apparently some of the brothers just were not trained enough as Indian scouts and missed the grove completely. Dr. Horgan, faculty advisor, and "hippie" Jack Fallon (he's a member of the flower children sect) were among a few of the brothers who tried on shaving cream pies.

The new year for the Pittsburgh Club is well into the planning stage. New officers elected in June are: Vic Scrivo, president; Tom Bombich, vice president-Membership; Jim Walsh, vice president-Program; Al Miller, secretary; and Jim Elderkin, treasurer. Under the capable leadership of these brothers, the club should have a banner year. Jim Elderkin is a graduate of Rutgers

whereas the other officers are Pitt graduates and have held various offices in the Lambda Chapter.

Our good friend and brother, Ed Langer, has moved to the State of Florida. Our loss is certainly their gain as Ed was first, last and always a Deltasig. We hope he will remain a staunch Pitt Panther supporter, as we know he will remain an active Deltasig. We'll miss him and his lovely family, but wish him great success and much happiness in his new endeavors and environment.—B. J. MICHALEK

## INDIANAPOLIS

DELTASIG ALUMNI at Indianapolis closed out the '67-'68 year with a wet but delicious cook-out on July 13. Brother Finney's note to alumni to stay in the shallow water made us wonder if the pool at our cook-out was bugged. It was wet, but only for a few. Brother Busse was the first to enter the pool, but he was the only one who came prepared and the only one who went in voluntarily.

Indianapolis alumni should have attained their goal of fifty members by the time this is in print.

Officers elected last May were: President Otto Berlin, Burroughs Corporation; Vice President Don Tate, Merchants National Bank; Treasurer J. Evan Stiers, Indiana National Bank; Secretary Kevin Jessup, Small Business Administration; Directors Jerry McClaine, Indiana National Bank; and William Hansen, R.C.A.

Founders' Day plans have not yet been finalized, but ideas discussed include inviting undergraduate chapter officers and discussing ways we can help them, or inviting The Central Office personnel to honor them for the assistance they have given us.

We have obtained a permanent meeting location. It is the meeting room of the Merchant's National Bank Branch on Thirty-eighth Street one block west of Meridian. We'll have meetings at 7:30 P.M. the third Thursday of each month. All Deltasigs in the area are invited to drop in.—KEVIN S. JESSUP, SR.

## SAN FRANCISCO

THE SAN FRANCISCO ALUMNI Club expects to have another great year. After a year of much fellowship and one marked by a dramatic increase in membership, the Club met on June 6 for the installation meeting at the San Francisco "Bunny" Club. The Brothers, wives and sweethearts enjoyed a fine dinner in the Banquet Room and a

short installation meeting.

Brother Bob Lovejoy, outgoing president, opened the after-dinner business with a sketch of the many activities which were enjoyed last year, ranging from our luncheon talk by Brother Pat Boner on Industrial Relations to our deep-sea fishing expedition on which Brother Hal Mackenthun brought his famous "Dagwood" sandwich encased in an entire loaf of french bread. Next followed the installation of the officers for the new year. Our new President, Ted Wiedemann, then took the stage and broadly painted some of his plans for the continued fellowship and growth of the Club in the coming year.

Our monthly luncheons continue to be held at the "Inn the Alley" restaurant on the first Thursday of each month. "Inn the Alley" is located in the center of the San Francisco Financial District, at 52 Belden Place. We would like to extend an invitation to all Brothers who may be in San Francisco on our meeting days to join us for an interesting speech and friendly gathering.

# New College of Business Administration Building Occupied at Idaho State University

Idaho State University's College of Business Administration and Classroom Building with a total floor space of 98,918 square feet is the largest and newest building on the campus.

The six-floor \$1.8 million building facing Hutchinson Quadrangle, the university's grassed core, opened in the fall of 1967.

Though the College of Business Administration is the main occupant, the building also houses some departments of liberal arts and the University's Computer Services Center.

Some 750 undergraduates are enrolled in the business college and approximately 30 students are expected to enroll in the first year of the master's program commencing this fall.

Architecturally, the buff-colored, air-conditioned building is comprised of two sections joined by wide, glass-walled hallways on the top three floors and spacious foyers on the first and second levels.

Sixty offices for faculty are contained in the narrower tower section of the building with classrooms and lecture halls in the main block.

Covered by a grooved concrete canopy, the main doors of the building enter into a wide terrazzo and brick lobby with its glass-walled reception area to the busi-

ness dean's suite of offices. Besides his own office, the dean's suite contains a conference room and offices for two assistants.

Since this is a contour-built structure, the building actually has two floors below the main entrance. The basement contains the University's Computer Service Center equipped with 1620, 1130 and 360 model 20 computers used by faculty members and students for research and course work. The first level features a modern auditorium with 190 theater-style seats and a rear projection room. Also on this floor are two foreign language labs containing cubicles with facilities for students to listen to tape recordings and record pronunciation.

In addition to regular classrooms, the first, second and fourth floors contain a total of 12 tiered classrooms varying in seating capacity from 44 to 90. The fan-shaped rooms with semi-circular desks and swivel chairs encourage maximum eye contact between the instructor and students.

Classrooms and a carpeted faculty lounge equipped with a kitchen occupy the third floor.

All faculty offices are carpeted in harmony with four different color schemes used in the furnishings.

The college's facilities for instruction in business machines have spacious allowance on the fourth floor. An up-to-date statistics laboratory has 48 calculators and 30 adding machines and the typing lab has a five-channel electronic system for selecting dictation of various types and speeds.

Located on the fifth floor is the Bureau of Business Research which serves business and industry throughout the state in a number of ways. The bureau has offices and working space for both faculty and student researchers and a remote control system which connects with the Computer Services Center. A large reading lounge on this floor provides students with periodicals and business publications.

Special attention has been given throughout the building to providing groups of small individual study rooms, principally for the use of graduates. Alex J. Simon is dean of the College of Business Administration at Idaho State.

# 42 Chapters Achieve 100,000 in Chapter Efficiency Index; Another 29 Receive Honorable Mention

A record 71 chapters have placed on the Honor Roll or received Honorable Mention in the 1967-68 Chapter Efficiency Index by achieving 85,000 points or more. All together, 84 of the 136 undergraduate chapters which participated in the Chapter Efficiency Index last academic year exceeded the all Fraternity average of 80,566 points.

Renamed the Chapter Efficiency Index during the 1966-67 academic year, the rules were also revised, making the Chapter Efficiency Index more equitable for all chapters, regardless of their size.

The five divisions of the Chapter Efficiency Index are: Professional Activities, Scholarship, Membership, Finances and Other Activities. Inaugurated in 1931-32, the Chapter Efficiency Index

has proven to be one of the most interesting and beneficial activities of the Fraternity. It provides each chapter with a yardstick of measurement of its activities, local achievements and exhibited degree of initiative and administration.

Chapters which have achieved 100,000 points during each of the last five years are: Kappa, Georgia State College; Alpha Beta, University of Missouri at Columbia; Alpha Eta, University of South Dakota; Alpha Theta, University of Cincinnati; Beta Omega, University of Miami; Gamma Kappa, Michigan State University; Gamma Lambda, Florida State University; Gamma Tau, University of Southern Mississippi; Gamma Psi, University of Arizona; Gamma Omega, Arizona State University; Delta Tau, In-

diana State University; Epsilon Theta, Chico State College; Epsilon Iota, Mankato State College; and Epsilon Xi, Ball State University. Kappa Chapter at Georgia State College with a record 32 times on the Honor Roll continues to lead all chapters, closely followed by Alpha Beta Chapter at the University of Missouri at Columbia with 28.

# Delta Sigma Pi Educational Foundation to Award a Four Year Scholarship in 1969

THE DELTA SIGMA PI Educational Foundation is sponsoring a four year Merit Scholarship to finalists in the National Merit Scholarship Program. These finalists will also have to be children or grandchildren of Deltasigs. The winner will be selected by the National Merit Scholarship Corporation.

This is the start we have been promising for the past three years. We hope that we will be able to make this an annual part of our program. At the moment we have committed ourselves to only the one scholarship. Should our receipts be sufficient, we will provide a new four year scholarship each year. We are convinced that this part of our program will be of interest to all Deltasigs and they will support our program with contributions. Our fund has grown to over \$12,000.00 with stimulating growth over the past few years. Now that we are beginning to fulfill the purpose of the Foundation the contributions should be even greater.

Perhaps you are not familiar with the National Merit Scholarship Program. Since 1955 National Merit has offered its tests to schools throughout the country. More than 17,500 high schools participate by allowing their students in their Junior year to take the National Merit Scholarship Qualifying Test. Approximately 15,000 students reach the Semi-finalist class. In the fall of this year the Semi-finalists will be named. These students will be asked to take a second test. From past performance it is estimated that 14,700 of the Semi-finalists will be named finalists. These finalists are eligible to apply for one of the 3,000 Merit Scholarships. In February 1969 the selections of the scholarship recipients will begin. Since there will be a Delta Sigma Pi Educational Foundation Merit Scholarship those finalists who are children or grandchildren of Deltasigs will have a greater chance for a scholarship than students without a similar application.

The scholarship we are awarding is one for a student completing secondary school in 1969 and entering a college in the fall of 1969 where a chapter of Delta Sigma Pi is active. The student must plan on following a course of study in business or a related field. We have selected a

number of major courses or career choices that will meet the above requirement. The maximum scholarship is \$1,500 per year for four years. The minimum is \$500 per year for four years. The amount awarded will be determined by the National Merit Scholarship Corporation according to the need of the stu-

dent and his family. The method for this determination is governed by the rules set up by that corporation for all of their scholarships.

The student will have to make application for this scholarship with the application reproduced herein. It will be up to the members of Delta Sigma Pi to advise

## 1969 DELTA SIGMA PI EDUCATIONAL FOUNDATION SCHOLARSHIP PROGRAM

For sons, daughters, grandsons or granddaughters of the International Fraternity of Delta Sigma Pi. To be completed and returned on or before December 15, 1969 to:

ROBERT O. LEWIS  
Delta Sigma Pi Educational Foundation  
970 Waverly Road  
Glen Ellyn, Illinois 60137

Please enter me in the 1969 DELTA PI EDUCATIONAL FOUNDATION SCHOLARSHIP PROGRAM.

I am the  son  grandson  
 daughter  granddaughter of a member of Delta Sigma Pi, and I expect to complete high school in 1969 and enter college in 1969.

- I took the National Merit Scholarship Qualifying Test in February, 1968, as administered by the school listed below. I understand that my scores on this examination will be used to evaluate my candidacy in the Delta Sigma Pi Educational Foundation Scholarship Program.

- I have applied for admission to the following colleges or universities:

I intend to apply  
1. \_\_\_\_\_ 2. \_\_\_\_\_ 3. \_\_\_\_\_  
I plan to pursue a course of study leading to a Bachelor's Degree in \_\_\_\_\_.

I understand that: 1) the decisions of the National Merit Scholarship Corporation of Evanston, Illinois, will be final in the selection of scholarship winners and in the determination of student stipends, based on individual need, which accompany the scholarships; and that 2) winners of Delta Sigma Pi Educational Foundation Scholarship Program may accept up to a total of \$1,000 in other awards over the four scholarship years without affecting the stipend. Winners may accept additional scholarship awards beyond this amount with the understanding that if they do, their Delta Sigma Pi Educational Foundation Scholarship stipend will be reduced accordingly. However, no Delta Sigma Pi Educational Foundation award payment will be reduced to a point lower than the minimum stipend of \$500 per year. Students whose computed need is greater than the Delta Sigma Pi Educational Foundation Scholarship maximum of \$1,500 per year will be permitted to accept additional funds equal to the amount their need exceeds \$1,500. In all cases of other awards, the National Merit Scholarship Corporation should be notified.

these students that this scholarship is available to them. Once the application has been made out and mailed to the Foundation we will ask The Central Office to determine that the Deltasig named as parent or grandparent has been a member in good standing in the fraternity for the past five years. Once this has been established, the applications will be presented to National Merit for their verification and final selection.

The applications should be completed and mailed to us by December 15, 1968 to enable The Central Office to make their verification and mail the applications to National Merit by January 5, 1969.

Help us to get the program on the road. Tell the children and grandchildren that their dad or granddad belongs to an organization that has their interest at heart. You may already be a winner. This could take the place of that insurance policy you wanted to buy years ago. We are looking forward to a flood of applications. There just has to be many finalists in the Deltasig family. If you wish further information, write to us.

We would like to add you to our list of contributors, too. This is a great program and it is going to get better until it is greater. This is only the beginning. Our purpose is being fulfilled partially. Send us part or all of your 1968 charitable contribution. Your contribution is tax deductible. Those contributing \$100 become voting members in the Foundation. Contributions are cumulative and when your smaller contributions reach \$100 you, too, become a voting member. One Deltasig donated \$10.00 per month for ten months in 1967-68 and is now a member. Start now. Who knows, it may be your child or grandchild benefiting from this Foundation. Send your donations to Robert O. Lewis, Executive Director, Delta Sigma Pi Educational Foundation, 970 Waverly Road, Glen Ellyn, Illinois 60137. You will receive a receipt from us for your records.—ROBERT O. LEWIS

## Occupies New Building

SPRING USUALLY brings new flowers, but for the School of Business Administration at the University of Southern Mississippi at Hattiesburg it brought occupancy of a new building.

The one million dollar plus structure is primarily occupied by the School of Business Administration, although it also houses the Department of Computer Science and Statistics and a part of the School of Education and Psychology.

The three-story brick and concrete building is centrally heated and air conditioned and has a connected auditorium-teaching complex with two sections. Lo-

cated on the western fringes of the campus it has a 328 foot frontage and contains 64,570 square feet of floor space. It has 31 classrooms of varying sizes, 60 administrative offices, most of them small, and 25 other rooms for mechanical equipment, toilet facilities and storage area.

The School of Business Administration was formerly housed in Southern Hall, one of the oldest buildings on campus. Dr. Joseph A. Greene, Jr., is dean of the School of Business which has an enrollment of approximately 800 students, including the graduate students.

PICTURED HERE IS the new School of Business Administration building at the University of Southern Mississippi at Hattiesburg.
